

Maths Week

Ashgrove School

This week many students at Ashgrove will be doing additional puzzles and tasks to link in with Maths Week.

Some classes are registered for Maths Week <https://www.mathsweek.co.nz/>

Below are some links related to maths that you might find useful and informative.

There is great potential in children's home and family life for activity to support children's mathematics learning. An understanding of ways in which mathematics is used in everyday life can help improve children's attitudes towards mathematics and to help children understand the value and relevance of mathematics in a variety of contexts.

Childrens' Mathematics Picture Books

Picture books are a good way to introduce children to mathematical concepts. These maths books are recommended for children aged four to eight.

Parents' (and Caregivers) Beliefs about Math Change Their Children's Achievement

"Teachers and parents need to replace sympathetic messages such as "Don't worry, math isn't your thing" with positive messages such as "You can do this, I believe in you, math is an open, beautiful subject that is all about effort and hard work."

Jo Boaler Mathematical Mindsets
