Tūrepo Maths Buddy 2019

This term we are running a free trial of Maths Buddy for all Tūrepo students. Maths Buddy is New Zealand based online programme that aligns with the New Zealand Mathematics Curriculum. Each student will have their own login and can access their account from any device at any time.

Maths Buddy offers students support in their Maths learning through access to 1400+ video tutorials, practice work directly related to their in class learning and speed skills, and weekly revision in all strands of the Mathematics Curriculum. Students benefit from access to this programme as they can learn at their own pace, they can stop and rewind tutorial videos until they grasp a concept, it builds confidence and they have access to support, practice and extension 24/7.

Mathematical e-learning is used to support and enhance students learning and offers another platform for students to practice their strategies and consolidate their knowledge. Tūrepo will be offering a range of free e-learning programmes for students to choose from including Prodigy, Studyladder and E-Ako. We are also offering the Maths Buddy programme as an **option** for Tūrepo students to use to support their Mathematics learning at school and at home.

If you would like your child to continue after the free trial of Maths Buddy into term 2 until the end of the year, the subscription per child is \$24.60 payable via Kindo. We thank Maths Buddy for providing us with a highly discounted rate per child. Subscriptions per child beyond the school is \$285 per child.

Please note, if you do not wish to continue your child's subscription after the free trial, your child will no longer be able to access Maths Buddy after term one. The **last day for payment** of Maths Buddy is **Friday 12th April**.

If you have any questions, please don't hesitate to ask your child's homeroom kiako.

Ngā mihi nui

Tūrepo Kaiako
