

# ASHGROVE SCHOOL BYOD USER AGREEMENT

This Bring Your Own Device (BYOD) agreement is between \_\_\_\_\_ (student),  
\_\_\_\_\_  
(parent(s)/caregiver(s) and \_\_\_\_\_  
(teacher, on behalf of Ashgrove School).

## BYOD USER AGREEMENT

As an Ashgrove STAR student, I promise to...

Madie

1. Use only learning apps, programmes and websites a Kaiako has said I can use.
2. Store my device in the locked area in my learning space when not in use.
3. Care for and take responsibility for my device and any damages to it.
4. Ensure my device is at school everyday so I can use it to help me learn.
5. Charge my device at home and ensure it has enough charge to last the day at school.

Jackson

### **As a parent/caregiver I/we agree to....**

- Assist and encourage my child to meet their BYOD responsibilities.
- Purchase and load any required apps onto my child's device. An iTunes account without credit card facilities is recommended.
- Monitor and ensure that all apps installed on my child's device are suitable. Please load all 'learning apps' onto screen 1 and any 'at home only' apps on additional screens. If using iOS devices at home, we recommend enabling 'family sharing'.
- Reinforce classroom learning of digital citizenship including responsible use of internet facilities.
- Discuss how your values as a family apply to the use of digital tools. We recommend writing this down and displaying in an obvious place at home.
- Be involved in my child's digital life so that I can support them to learn safely, and support as necessary.
- Discuss with my child any damages to their device and arrange for these to be repaired or replaced at my child's/my cost.
- Discuss with my child how they are using their device to assist their learning, view the current learning and provide oral and digital feedback where possible.
- Attend any applicable digital information sessions provided by Ashgrove School for parents/caregivers.

### **At Ashgrove School I/We agree to....**

- Provide reliable wireless access to our school network and the Internet.
- Provide approved website filtering protection and clear guidelines for any breaches
- Provide a lockable space for students to store their devices during break times. It is a student responsibility to ensure they use this space.
- Provide learning experiences for students to enable them to become effective digital citizens.
- Share with the home how we develop digital citizenship and suggest resources and activities the family can support and transfer this learning to the home.
- Plan for and implement digital learning activities where the student devices can be utilised to enhance their learning.
- Ensure our staff are up skilled in best practices at using technology to support learning.
- Notify parent(s)/caregiver(s) of any issues arising where the student struggles to meet their BYOD responsibilities.
